CEQ: ● **WHAT PRIOR KNOWLEDGE DO STUDENTS NEED TO BE SUCCESSFUL IN ALGEBRA 1.5?** ● **HOW DO WE OPERATE WITH POLYNOMIALS?** ● **HOW CAN QUADRATIC (2ND DEGREE) EQUATIONS BE SOLVED?**	**A. Simplification of Expressions** A1. Simplify expressions using the order of operations. A2. Simplify expressions using the distributive property. **B. Single Variable Equations** B1. Solve algebraic equations in one variable. B2. Set up and solve	**Chapters 1-3 Review Variables, Function Patterns, and Graphs** LT1. I can simplify expressions using order of operations. **Rational Numbers** LT2. I can simplify expressions using the distributive property. **Solving Equations** LT3. I can solve algebraic equations with one variable. LT4. I can set up and solve ratios and proportions. **Solving Inequalities** LT5. I can solve inequalities with one	**A. Simplification of Expressions** **B. Single Variable Equations** **C. Solutions of Inequalities** **CSA= A1-A2, B1-B2, C1-C3 Algebra 1**	**Chapter 1-3:** Mn State Standard 8.2.3.2 Mn State Standard 8.2.4.2 Mn State Standard 8.2.4.5	Prentice Hall Algebra 1

Chapters 1-7 were completed in Algebra 1. However, all main concepts will be reviewed during the first few weeks of the Algebra 1.5 course. **A. Simplification of Expressions** A1. Order of operations A2. Distributive property **B. Single Variable Equations** B1. Multi-step equations B2. Equations with variables on both sides B3. Ratios and proportions **C. Solutions of Inequalities**	ratios and proportions. **C. Solutions of Inequalities** C1. Solve inequalities with variables on one or both sides of equations. C2. Graph inequalities. C3. Solve and graph compound inequalities with "and" or "or". **D. Linear Equations** D1. Calculate slope using points, line, or table. D2. Write equation of	variable. LT6. I can graph inequalities on a number line. LT7. I can solve and graph compound inequalities with "and" or "or" statements. LT8. I can graph and solve absolute value inequalities **Chapter 5 Review Linear Equations and Their Graphs** LT1. I can calculate slope using two points, a line, or	**Review Test #1 (Chapters 1-3)** **LT1: 1-9** **LT2: 5,6** **LT3:** 10-13 **LT4: 14, 15** **LT5: 16-20** **LT6: 17-20** **LT7: 21, 22** **LT8: 23-25** **D. Linear Equations** **CSA= D1-D4** **Algebra 1 Review Test #2 (Chapter 5)** **LT1: 1-6, 19** **LT2: 7-11, 18, 25** **LT3: 16-19** **LT4: 18, 26** **LT5: 19, 20** **LT6: 21-24** **LT7: 14, 15**	**Chapter 5:** Mn State Standard 8.2.4.3	Chapter 5: Lessons 5.1, 5.3, 5.4, 5.5, 5.6

C1. Multi-step inequalities C2. Graphs of inequalities C3. Compound inequalities **D. Linear Equations** D1. Slope D2. Slope-intercept form D3. Standard form D4. Point-slope form **E. Systems of Equations** E1. Solving by graphing E2. Solving by substitution	line in slope-intercept form. D3. Write equation of line in standard form. D4. Write equation of line in point-slope form. **E. Systems of Equations** E1. Solve a system of equations by graphing. E2. Solve a system of equations using substitution. E3. Solve a system of equation using elimination. **F. Exponents** F1. Simplify expressions with positive, negative,	a table of values. LT2. I can write a linear equation of a line in slope-intercept form. LT3. I can write a linear equation of a line in standard form. LT4. I can write a linear equation of line in point-slope form. LT5. I can recognize if two lines are parallel or perpendicular. LT6. I can write an equation that is parallel or perpendicular to another line. LT7: I can recognize and graph a linear inequality. **Chapter 6 Review Systems of Equations and Inequalities** LT1. I can identify if a point is a solution to a system. LT2. I can solve a system of	**E. Systems of Equations** **CSA= E1-E3** **Algebra 1 Review Test #3 (Chapter 6)** **LT1: 1, 2** **LT2: 3, 4** **LT3: 5-7, 12, 14, 16** **LT4: 8-11, 13-15** **F. Exponents** **CSA= F1-F6** **Algebra 1 Review Test #4** **LT1: 1-6, 12, 16, 17, 21-26, 29** **LT2: 9, 10, 17, 28, 34** **LT3: 7, 8, 18, 20, 24, 27, 29, 34** **LT4: 11, 13, 30, 32,**	**Chapter 6** Mn State Standard 8.2.4.7 **Chapter 7:** Mn State Standard 8.1.1.4 Mn State Standard 8.1.1.5	Chapter 6: Lessons 6.1, 6.2, 6.3, 6.4 Chapter 7: Lessons 7.1, 7.2, 7.3, 7.4, 7.5

E3. Solving by elimination **F. Exponents** F1. Multiplication of expressions containing exponents F2. Division of expressions containing exponents F3. Exponential growth and decay	and/or zero exponents. F2. Multiply powers with the same base. F3. Raise a power to a power and a product to a power. F4. Divide powers with the same base. F5. Raise a quotient to a power. F6. Write equations to model exponential growth and decay situations.	linear equations by graphing. LT3. I can solve a system of linear equations using substitution. LT4. I can solve a system of linear equations using elimination. **Chapter 7 Review Exponents and Exponential Functions** LT1. I can simplify expressions with positive, negative, and zero exponents. LT2. I can multiply powers with the same base. LT3. I can simplify a power to a power and a product to a power. LT4. I can divide powers with the same base. LT5. I can raise a quotient to a power.	**33** **LT5: 14, 15, 19, 30-33**

UEQ: *•How are polynomials categorized by degree and by number of terms?* *• How are polynomials added, subtracted, and multiplied?* *• How are polynomials factored?* **A. Operations with Polynomials** A1. Classification of polynomials A2. Addition and subtraction of polynomials A3. Multiplication of polynomials **B. Factors of a**	**A. Operations with Polynomials** A1. Classify polynomials by degree and by number of terms. A2. Add and subtract polynomials by combining like terms. A3. Multiply polynomials of various degree and with different numbers of terms. **B. Factors of a Polynomial**	**Polynomials and Factoring** LT1. I can write a polynomial in standard form. LT2. I can classify polynomials by degree and by number of terms. LT3. I can add and subtract polynomials by combining like terms. LT4. I can multiply polynomials by distributing. LT5. I can multiply polynomials by using FOIL. LT6. I can factor out a Greatest Common Factor (GCF). LT7. I can factor a difference of squares. LT8. I can factor a trinomial with a coefficient when a =1.	**A. Operations with Polynomials** **B. Factors of a Polynomial** **CSA= A1-A3 and B1-B4 Chapter 8 Test** **LT1: 1, 2**	**Chapter 8:** Mn State Standard 9.2.3.2 Mn State Standard 9.2.3.3	Chapter 8: Lessons 8.1, 8.2, 8.3, 8.4, 8.5, 8.6, 8.7, 8.8

Polynomial B1. Factorization of a polynomial	B1. Factor a monomial from a polynomial (GCF). B2. Factor a difference of squares. B3. Factor a trinomial into two binomials. B4. Factor a polynomial with four or more terms by grouping.	LT9. I can factor a trinomial with a leading coefficient not equal to 1. LT10. I can factor a polynomial with four terms by grouping.	**LT2: 1, 2** **LT3: 3-6, 16, 17, 19** **LT4: 7-9, 14** **LT5: 10-13, 15, 18, 19** **LT6: 20-23** **LT7: 25, 31** **LT8: 24, 26-28, 32, 37** **LT9: 30, 34, 35, 36a** **LT10: 29, 33**

UEQ: • *How are quadratic equations graphed?* • *How can quadratic equations be solved?* • *How is data best modeled using linear, exponential, or quadratic equations?* **A. Quadratic**	**A. Quadratic Function (Parabola)** A1. Identify vertex of parabola.	**Quadratic Equations and Functions** LT1. I can identify the vertex of parabola. LT2. I can identify an axis of symmetry of parabola. LT3. I can graph a quadratic function with at least five points of accuracy. LT4. I can graph a quadratic inequality with at least five	**A. Quadratic Function (Parabola)**	**Chapter 9:** Mn State Standard 9.2.1.5 Mn State Standard 9.2.1.6 Mn State Standard 9.2.2.1 Mn State Standard 9.2.2.3	Chapter 9: Lessons 9.1, 9.2, 9.3, 9.4, 9.6

Function (Parabola) A1. Identification of vertex of parabola A2. Identification of axis of symmetry of parabola A3. Graph of quadratic function **B. Quadratic Equations** B1. Use of square roots to solve B2. Use of graphs to solve B3. Use of factoring to solve B4. Use of quadratic formula to solve B5. Interpretation of discriminant **C. Models for Data**	A2. Identify axis of symmetry of parabola. A3. Graph quadratic function with at least five points of accuracy. **B. Quadratic Equations** B1. Solve quadratic equation by using square roots. B2. Solve quadratic equation by graphing the corresponding function. B3. Solve quadratic equation by factoring and using zero-product property. B4. Solve quadratic equation by using the quadratic formula. B5. Interpret what the discriminant reveals about the number of solutions. **C. Models for Data** C1. Choose	points of accuracy. LT5. I can recognize how a graph is transformed based on the function. LT6. I can solve a quadratic equation by using square roots. LT7. I can solve a quadratic equation by graphing the corresponding function. LT8. I can solve a quadratic equation by factoring and using zero-product property. LT9. I can solve a quadratic equation by using the quadratic formula. LT10. I can interpret what the discriminant reveals about the number of solutions. LT11. I can determine the type of graph represented based on a table of values.	**B. Quadratic Equations** **C. Models for Data** **CSA= A1-A3, B1-B6, C1-C2 Chapter 9 Test** **LT1: 2, 5-7, 23** **LT2: 5-7** **LT3: 8-9** **LT4: 10** **LT5: 1-4** **LT6: 11, 12, 22** **LT7: 20, 21** **LT8: 13-15** **LT9: 16, 17, 24** **LT10: 18, 19** **LT11: 25, 26**		

C1. Graph of data / Appropriate model C2. Equation to model data	appropriate model by graphing the data. C2. Write equation to model the data.

UEQ: **What are some ways to display and interpret data?* **How are probability and odds calculated?* **How do we find permutations and combinations?* **A. Probability and Odds** A1. Calculation of Probability A2. Calculation of Odds **B. Permutation and Combinations** B1. Counting methods and permutations B2. Combinations	**A. Probability and Odds** A1. Calculate experimental probability of event occurring. A2. Calculate theoretical probability of event occurring. A3. Calculate the probability of compound events - both independent and dependent. **B. Permutation and Combinations** B1. Use counting methods including the fundamental counting principle. B2. Find permutations. B3. Find combinations.	**Probability** LT1. I can calculate experimental probability of event occurring. LT2. I can calculate theoretical probability of event occurring. LT3. I can find the probability of independent and dependent events. LT4. I can find permutations. LT5. I can find combinations. LT6. I can use the counting method. LT7. I can find the probability of mutually exclusive and overlapping events. LT 8. I can calculate the odds of an event occurring.	**a. Probability and Odds** **B. Permutation and Combinations** **CSA= A1-B3, B1-B3 Probability (Ch12) Test** **LT1: 1** **LT2: 2, 3** **LT3: 14, 15, 17-21, 33** **LT4: 24, 26-29** **LT5: 25, 30-32** **LT6: 22, 23, 34** **LT7: 9-13, 16** **LT8: 4-8** **C. Displays and**	**Probability:** Mn State Standard 9.4.3.1 Mn State Standard 9.4.3.5	

C. Displays and Interpretation of Data **C1. Frequency Tables** **C2. Line Plots** **C3. Bar Graphs & Histograms** **C4. Line Graphs** **C5. Circle Graphs** **C6. Measures of Central Tendency** **C7. Stem-and-Leaf Plots** **C8. Box-and-Whisker Plots** **C9. Scatterplots** **C10. Line of Best Fit** C1. Frequency Tables C2. Line Plots	**C. Displays and Interpretation of Data** **C1. Construct and interpret frequency tables.** **C2. Construct and interpret line plots.** **C3. Construct and interpret bar graphs and histograms.** **C4. Construct and interpret line graphs.** **C5. Construct and interpret circle graphs.** **C6. Identify measures of central tendency - mean, median, mode.** **C7. Construct and interpret stem-and-leaf plots.** **C8. Construct and interpret box-and-whisker plots.**	**Statistics** LT1. I can construct and interpret frequency tables. LT2. I can construct and interpret line plots. LT3. I can construct and interpret bar graphs and histograms. LT4. I can construct and interpret line graphs. LT5. I can construct and interpret circle graphs. LT6. I can identify mean, median, mode. LT7. I can construct and interpret stem-and-leaf plots. LT8. I can construct and interpret box-and-whisker plots.	**Interpretation of Data** **CSA= C1-C10 Statistics (Ch 12) Test** **LT1: 1b** **LT2: 4a, 10** **LT3: 1c, 2, 14** **LT4: 5, 13** **LT5: 3, 12** **LT6: 4b, 8-10** **LT7: 1a, 9** **LT8: 6, 11** **LT9: 7a,c** **LT10: 7b**	**Statistics:** Mn State Standard 9.4.1.1 Mn State Standard 9.4.1.3	

C3. Bar Graphs & Histograms C4. Line Graphs C5. Circle Graphs C6. Measures of Central Tendency C7. Stem-and-Leaf Plots C8. Box-and-Whisker Plots C9. Scatterplots C10. Line of Best Fit	**C9. Construct and interpret scatterplots.** **C10. Find the line of best fit.**	LT9. I can construct and interpret scatterplots. LT10. I can find the line of best fit.
